

MBA North Regional Safety Awards 2013

The Master Builders Association North Regional Safety Awards, held at the Bytes Conference Centre in Midrand, was particularly well attended this year by Association members, captains of the construction industry, MBA office bearers and past presidents.

A record number of entries was received in the closely contested projects section of the competition; and the individual categories saw Caroline Chauke of Tiber Bonvec Construction being announced as the winner of the Best CHS Representative, with Jan Welgemoed of Tyris Construction being awarded the Best Site CHS Officer trophy.

Doug Michell, construction health and safety manager, MBA North and chief coordinator of this exceptionally well run event, said: "It is indeed pleasing to see the ladies winning through in the individual categories."

The Best Sub Contractor was won by WAC Formwork – for the Department of Environmental Affairs (DEA) Joint venture and Category I for projects of R500 million and above was won by the Stefanutti Stocks/Basil Read JV for the Kusile Power Station.

Winners of the MBA North Regional Safety Competition 2013 are as follows:
