

Nokuthula

Established in 1984 as part of the Alexandra Clinic in Johannesburg, Nokuthula Centre and Special School, based in Marlboro, is a school that provides teaching to learners with special needs and severe intellectual disabilities, aged 3 to 18 years, and includes nonverbal learners.

Nokuthula itself has very special needs. Needs that Tiber Construction, with a little help from their sub-contractors, helped to address. Work included general maintenance of kitchen facilities; fixing the bathroom plumbing and tiles; ceiling repairs, carpeting and painting the classrooms, and rebuilding the entrance wall.

In addition Tiber Construction donated furniture, medical supplies including a postural seating system, clothes, nappies, blankets and t-shirts, bags, and soccer balls.

We helped raised funds by way of raffles in 2006 and 2009, and organized Easter and Xmas parties in 2007, 2008, and 2009; and a zoo trip in 2009.
